

Blue Reef

2007 Sauvignon Blanc

The Blue Reef wine range is a newly formed brand from McPherson Wines committed to helping the ZooX Fund™, an organisation specifically dedicated to funding research into the effects of climate change on the Great Barrier Reef.

Varieties: 100% Sauvignon Blanc
Alcohol: 11.5%
Total Acidity: 7.2 g/L

HARVEST NOTES

The conditions in 2007 were extremely dry with vintage starting two weeks earlier than expected and finishing a month earlier than usual, this being the quickest vintage in our history. As a result, yields were down approximately 30% in our Central Victorian vineyards but the quality was of an extremely high standard. Due to the lack of water, berries were smaller and bunch weights were lower but this has seen an increase in colour and flavour intensity across the board. This season was definitely about quality rather than quantity.

WINE DESCRIPTION

This delightful unoaked wine displays intense aromas of capsicum, goosberries and passionfruit. There is a prominent herbaceous character in the wine which adds complexity and depth - typical of the Sauvignon Blanc varietal. The palate is lively and fresh with a lingering finish.

CELLARING

2007 - 2009
